Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Enclosed please find for your review five (5) copies of the upgraded Emergency Plan for the Donald C. Cook Nuclear Plant. This plan is designed to meet those requirements stated in Mr. Eisenhower's September 13, 1979 letter and represents fulfillment of a commitment in our October 24, 1979 response letter (AEP:NRC:00253).

A copy of the plan is being sent concurrently to the Michigan State Department of Public Health and the Berrien County Sheriff's Department for their review to assure conformance with the Michigan Peacetime Nuclear Incident Rules. Any differences between the State and Federal requirements must be jointly addressed by your representatives.

Included as a part of this plan submittal are appendices which contain the latest versions of the State and Berrien County "Emergency Preparedness Plan" and "Radiological Emergency Response Plan" respectively.

Upon approval of the Donald C. Cook Nuclear Plant Emergency Plan, it will be incorporated into a future amendment to Chapter 12 of the FSAR and replace the current Emergency Plan in its entirety. Updates to the State and Berrien County emergency plans are expected in the future; however, no amendments to the FSAR will be generated unless the updates affect the
