AEP:NRC:00095A

Donald C. Cook Nuclear Plant Unit No. 2
Docket No. 50-316
License No. DPR-74
Supplemental Qualification Testing Of
Lot 1 Barton Transmitters

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

References: (1) AEP:NRC:00058

(3) AEP:NRC:00095

Dear Mr. Denton:

Please be advised that the Westinghouse Electric Corporation has transmitted the following documents to you under separate cover (Westinghouse letter NS-TMA-2120, dated September 14, 1979):

1. Forty (40) copies of a proprietary report entitled "Supplemental Qualification Testing of Barton Lot 1 Pressure and Differential Pressure Transmitters".
2. Twenty (20) copies of the non-proprietary version of this same report.

The NRC letter from Mr. J. F. Stolz to Mr. T. M. Anderson of Westinghouse dated May 15, 1979 presented the Staff's evaluation of the Westinghouse qualification tests on the Barton Lot 1 transmitters as reported in Westinghouse's letter No. NS-TMA-1950 dated September 29, 1978 (Reference 3). This evaluation letter requested additional confirmatory tests to demonstrate that the Lot 1 transmitters met all of their design specification requirements. In response, Westinghouse proposed to the Staff a supplemental test program as described in letter No. NS-TMA-2103 dated June 21, 1979. The Westinghouse report attached to letter No. NS-TMA-2120 contained the results of this program.

This letter authorizes the incorporation of the above documents under Docket No. 50-316, for Unit No. 2 of the Donald C. Cook Nuclear Plant, and is submitted in fulfillment of License Condition 4.B of Amendment No.6 to the D. C. Cook Unit No. 2 Operating License.

IMECo interprets 10 CFR 170.22 as requiring that no fee accompany this submittal.

Very truly yours,

R. S. Hunter
Vice President
