March 2, 1982

Mr. J.G. Keppler, Regional Administrator  
United States Nuclear Regulatory Commission  
Region III  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Operating License Nos. DPR-58 and DPR-74  
Docket Nos. 50-315 and 50-316

Dear Mr. Keppler:

On September 18, 1981, Mr. D.V. Shaller wrote you concerning the ratings on several fire doors at the D. C. Cook Nuclear Plant. The attachment to that letter informed you of an improperly drawn fire zone in our Fire Hazards Analysis Report, dated March 31, 1977. Redefining the boundaries of that fire zone has resulted in identifying the need to install two additional fire dampers.

In our letter of March 1, 1982, responding to the NRC's Notice of Violation and Proposed Imposition of Civil Penalties and Notice of Deviation (EA 82-03) we have committed to expand the coverage of Technical Specification 3/4.7.10, in a revised form, to include fire dampers. The necessary surveillance program for fire dampers is currently being developed. Due to the large number of fire dampers, we will require a period of time to fully implement and resolve any deficiencies identified during the initial surveillance cycle. All deficiencies identified during this initial surveillance period will be reported prior to the scheduled implementation of revised Technical Specification 3/4.7.10 on September 1, 1982.

In lieu of reporting each discrepancy individually, we shall report that information at the end of the initial fire damper surveillance program.

Sincerely,

*W.G. Smith, Jr.*  
W.G. Smith, Jr.  
Plant Manager

1. The first part of the report is a general description of the project and its objectives. It also includes a brief history of the project and a list of the people involved.

2. The second part of the report is a detailed description of the project's progress. It includes a list of the tasks that have been completed and a list of the tasks that are still pending.

3. The third part of the report is a summary of the project's results. It includes a list of the achievements that have been made and a list of the problems that have been encountered.

4. The fourth part of the report is a discussion of the project's future. It includes a list of the goals that the project is aiming to achieve and a list of the steps that are being taken to achieve these goals.

5. The fifth part of the report is a conclusion. It summarizes the main findings of the project and provides a final assessment of the project's success. It also includes a list of recommendations for future work.

6. The sixth part of the report is a list of references. It includes a list of the books, articles, and other sources that have been used in the project.

7. The seventh part of the report is a list of appendices. It includes a list of the tables, figures, and other supplementary material that are included in the report.

8. The eighth part of the report is a list of acknowledgments. It includes a list of the people and organizations that have provided support and assistance during the project.

9. The ninth part of the report is a list of the project's budget. It includes a list of the costs that have been incurred and a list of the funds that have been received.

10. The tenth part of the report is a list of the project's contacts. It includes a list of the people and organizations that are involved in the project and a list of their contact information.
