# INDIANA & MICHIGAN ELECTRIC COMPANY

P. O. BOX 18  
BOWLING GREEN STATION  
NEW YORK, N. Y. 10004

August 4, 1982  
AEP:NRC:0716

Donald C. Cook Nuclear Plant Unit Nos. 1 and 2  
Docket Nos. 50-315 and 50-316  
License Nos. DPR-58 and DPR-74  
NUREG-0737, ITEM II.B.3 - POST ACCIDENT SAMPLING SYSTEM

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

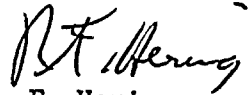

Dear Mr. Denton:

This letter serves to respond to Mr. S. A. Varga's letter of June 30, 1982 wherein Indiana & Michigan Electric Company was requested to provide a schedule for submittal of detailed information pertaining to Item II.B.3 of NUREG-0737, "Post Accident Sampling System".

The Post-Accident Sampling System (PASS) installed at the Cook Plant was designed in accordance with our understanding of the guidelines and criteria contained in NUREG-0578 and NUREG-0737. Indiana & Michigan Electric Company (I&MECo.) believes that several of the clarifications provided in the attachment to Mr. Varga's letter represent significant expansions of the requirements for the PASS beyond those utilized for system design. I&MECo. is working with our equipment supplier and consultant, NUS, towards development of detailed responses to Mr. Varga's requests. It is our intention to provide the requested information on or before October 29, 1982. Our submittal of October 29, 1982 will be as complete and responsive as possible, consistent with the availability of information from our contractors.

This document has been prepared following Corporate Procedures which incorporate a reasonable set of controls to insure its accuracy and completeness prior to signature by the undersigned.

Very truly yours,

  
R. F. Hering  
Vice President
