INDIANA & MICHIGAN
ELECTRIC COMPANY
DONALD C. COOK NUCLEAR PLANT

Instruction or Procedure Temporary Sheet

This temporary sheet applies to Activation and Operation of the Technical Support Center (TSC) Instruction or Procedure No. PMP 2081 EPP .02D Revision No. 1	TEMPORARY SHEET NO. 1
--------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------

The following change (X) new requirement () shall be
instituted effective (Date) September 9, 1982

ADD:

- 4.3.4 Upon activation of the EOF, Public Affairs personnel will move from the TSC to the EOF. Before leaving the TSC, the Public Affairs personnel will obtain copies of the chronological history log and give them to the Communications Director upon their arrival to the EOF. In the event that the EOF is manned before the Public Affairs personnel report to the TSC, a runner from the OSA will be dispatched to the EOF with copies of the chronological history log.

Reason: Provide history of the event to EOF personnel without having to tie up the dedicated test phones. This leaves the dedicated test phone open for transmittal of current key points concerning the event.

ADD:

4.3.5 Note

If there is not a release presently occurring or if the data used in the dose calculation is not considered as being reliable. Exhibit C must still be processed. Exhibit C contains additional information (besides dose assessment information) that must be relayed to off-site agencies.

Reason: Clarify a problem point identified during an emergency plan drill.

This change should be made a permanent revision to the Instruction or Procedure:

☒ YES ☐ NO ☐ NOT KNOWN, additional review required

Expiration Date: Procedure Revision
Originator: Scott Viner
Management Staff: R. L. ...
Senior Reactor Operator: David Campbell
PNSRC ... Date 9/14/82
Plant Manager ... Date 9/14/82
