Paul D. Zugger, Executive Secretary  
Michigan Water Resources Commission  
Stevens T. Mason Building, P.O. Box 30026  
Lansing, Michigan 48909

November 7, 1988

Dear Mr. Zugger:

RE: Donald C. Cook Nuclear Plant  
NPDES Permit No. MI 0005827  
Prefilter Backwash Limitations

A sample taken on October 31, 1988 of the prefilter backwash discharge (Outfall 00F) indicated a suspended solids (TSS) concentration of 138 mg/l. The average TSS for the month of October was 59 mg/l. The operating log showed that the prefilter backwash unit was operating normally at that time. Rough lake conditions appear to have suspended lake bottom sediments in the plant's intake water.

By copy of this letter, the Nuclear Regulatory Commission is notified pursuant to the requirements of Appendix B, Part II, Nonradiological Environmental Protection Plan, Section 3.2.

Very truly yours,

Richard C. Menge  
Senior Vice President

RCM/df
