UPDATED QUALITY ASSURANCE PROGRAM DESCRIPTION
FOR THE DONALD C. COOK NUCLEAR PLANT, JULY 1989

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

Attn: A. B. Davis

July 12, 1989

Dear Mr. Davis:

This letter serves to transmit one copy of the Updated Quality Assurance Program Description (QAPD) for the Donald C. Cook Nuclear Plant. This document will also be contained in the 1989 FSAR update which will be submitted in accordance with 10 CFR 50.71

We do not believe that the July 1989 QAPD update contains any changes of substance to our existing QA Program, or that the revisions therein constitute a reduction in any previous QA Program commitments. Each revision is an enhancement of the description of our existing QA Program.

Revisions incorporated in the July 1989 QAPD update fall into two categories: (1) editorial, organizational, and position title changes, and (2) software quality assurance responsibilities were added. Revisions are indicated by right-hand margin bars.

We are prepared to discuss any concerns or comments your staff may have.

This document has been prepared following Corporate procedures which incorporate a reasonable set of controls to ensure its accuracy and completeness prior to signature by the undersigned.

Sincerely,

M. P. Alexich
Vice President
