GENERIC LETTER 89-10 MOTOR-OPERATED VALVE TEST PROGRAM

U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D.C. 20555

Attn: T. E. Murley

January 25, 1991

Dear Dr. Murley:

As requested by our Project Manager, Mr. Tim Colburn, we are submitting this letter to inform you that the motor-operated valve (MOV) program description recommended by Generic Letter 89-10 has been completed and is available on-site for your review. A submittal will follow by February 28, 1991, detailing differences between this program and our original commitments to Generic Letter 89-10, which were submitted in our letter AEP:NRC:0966F dated December 29, 1989. By May 31, a revised design basis review and test schedule will also be available on-site. This revised schedule will reflect the testing performed during the last Unit 2 refueling outage and the present Unit 1 refueling outage.

This document has been prepared following Corporate procedures that incorporate a reasonable set of controls to ensure its accuracy and completeness prior to signature by the undersigned.

Sincerely,

A handwritten signature in cursive script, appearing to read 'M. P. Alexich'.

M. P. Alexich
