May 21, 1991

Dear Mr. Davis:

This letter is being sent to inform you that we are submitting, under separate cover, the scope and objectives for the August 27, 1991, Donald C. Cook Nuclear Plant Emergency Plan Exercise to Mr. W. G. Snell, Chief, Emergency Preparedness Section. This action is being taken in accordance with your March 16, 1987, letter to Mr. John E. Dolan and FEMA Guidance Memorandum EX-3, "Managing Pre-exercise Activities and Post-exercise Meetings."

The August 27, 1991, exercise will be a utility only exercise. The State of Michigan and Berrien County may participate in a supportive role but not for the purpose of evaluation.

The exercise will be conducted using the Unit 2 simulator and the simulated Technical Support Center in the Cook Nuclear Plant Training Center. Controller information and simulation data are also being developed to provide back-up for the exercise in the event of simulator equipment problems.

Also, in accordance with FEMA Guidance Memorandum EX-3, it is our intention to submit the complete exercise scenario package with all controller information and simulation data, including plant data, radiation level data, and release rate data, 60 days in advance of the exercise.

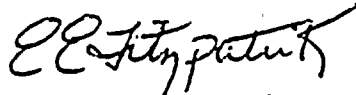

Mr. A. B. Davis
