Attn: A. B. Davis

August 7, 1991

Dear Mr. Davis:

This letter is a written follow-up to the July 17, 1991 telephone discussion between Mr. J. R. Kniceley of your staff and Messrs. M. J. Jury and B. P. Lauzau of AEPSC regarding Cook Nuclear Plant security system upgrades as addressed in the subject inspection reports. In particular, we would like to confirm NRC Region III management and staff understanding of our intentions with regard to implementing any of the upgrades presently under consideration and identified in item 4.c of the subject reports of Mr. Kniceley's routine safeguards inspection.

In the summary of entrance and exit interviews (item 2.b.(4) of the reports), the eight upgrades identified in item 4.c are referred to as "... planned upgrades. ...". Through the July 17 discussion we confirmed that the Region III management and staff understanding is, correctly, that the identified security system upgrades are only items under consideration at this time. Some of these items may not be implemented based on budgetary constraints and cost/benefit analyses. We wanted to clarify this point since it could be inferred from the wording of the inspection reports that the upgrades in fact have all definitely been planned for implementation.

2001 11

Mr. A. B. Davis

-2-

AEP:NRC:1148B

We hope this letter of clarification precludes any future misunderstanding of this matter. We will, of course, continue to work with your staff and provide status reports of enhancements to our security system as they are planned for implementation.

This document has been prepared following Corporate procedures that incorporate a reasonable set of controls to ensure its accuracy and completeness prior to signature by the undersigned.

Sincerely,

E. E. Fitzpatrick
Vice President
