RHR MOTOR CURRENT MONITORING MODIFICATIONS

U. S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555

Attn: T. E. Murley

November 9, 1992

Dear Dr. Murley:

This letter is written to advise you that installation of RHR motor current monitoring as part of the mid-loop monitoring system has now been completed. These modifications were completed under RFC-12-4058 in fulfillment of commitments made in our letters AEP:NRC:1033C and AEP:NRC:1033F.

The RHR current monitoring capability was added to the mid-loop monitoring carts. The necessary modifications to existing plant equipment were completed by May 15, 1992 on Unit 2 and by October 1, 1992 on Unit 1.

The installation of this equipment fulfills our commitment to have RHR motor current monitoring installed by the end of the 1992 unit refueling outages.

Sincerely,

E. E. Fitzpatrick
Vice President
