

December 6, 2017

Mr. Steve Mirsky, P.E.  
Manager, Regulatory Affairs  
NuScale Power, LLC  
1100 NE Circle Blvd., Suite 200  
Corvallis, Oregon 97330

SUBJECT: REQUEST FOR APPROVAL OF ADDITIONAL FACILITY FOR STORAGE OF  
INFORMATION GOVERNED BY EA-10-073

Dear Mr. Mirsky:

On June 2, 2010, the U.S. Nuclear Regulatory Commission (NRC) issued, "Order Imposing Safeguards Information Protection Requirements for Access to Safeguards Information" (EA-10-073). EA-10-073 included restrictions on the storage and sharing of the information designated Safeguards Information (SGI) by the Order. Specifically, Section III.A.2 of EA-10-073 requires written NRC approval of any additional facilities in which NuScale Power, LLC (NuScale) intends to store the information designated SGI by the Order listed above.

The NRC staff received your request for approval dated, October 3, 2017 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17276B859), to store SGI at the following facility:

NuScale Power, LLC  
11333 Woodglen Drive, Suite 205  
Rockville, Maryland 20852

In your request, you stated that the NuScale Reviewing Official had conducted a physical review of the controlled-access location and that day-to-day security procedures would be in line with NuScale's SGI Program (NP-PG-0602-211). Based on the information provided by NuScale, the NRC has determined that the facility listed above meets the requirements for storage of SGI governed by EA-10-073. Accordingly, your requests to store SGI at the referenced facility is approved.

NuScale is reminded that the terms of Order EA-10-073, as amended, require NRC approval if NuScale intends to provide SGI to individuals for whom fingerprinting and a Federal Bureau of Investigation criminal history records check was not reasonably expected to yield sufficient criminal history information to form the basis of an informed decision on granting access to SGI.

S. Mirsky
