Dear Sir:

Re: Proposed Generic Letter on Accelerated Testing of
Emergency Diesel Generators

We appreciate the opportunity to comment on this proposed generic letter and wholeheartedly encourage NRC to expedite its issuance in final form. The elimination of accelerated testing from plant technical specifications and associated reporting requirements offers significant benefits to our company, as well as the industry.

We concur with NUMARC that this proposal is a constructive approach at maintaining and monitoring emergency diesel generator reliability, while ensuring appropriate application of resources.

Sincerely,

E. E. Fitzpatrick
Vice President
