Attn: T. E. Murley

November 15, 1993

Dear Dr. Murley:

This letter and its attachments constitute an application for amendment to the technical specifications (T/S) for the Donald C. Cook Nuclear Plant Units 1 and 2. The proposed changes consist of various administrative and editorial changes.

Attachment 1 provides a detailed description of the proposed changes, the justification for the changes, and our proposed determination of no significant hazards consideration performed pursuant to 10 CFR 50.92. Attachment 2 contains the existing T/S pages marked to reflect the proposed changes. Attachment 3 contains the proposed, revised T/S pages.

This submittal proposes changes to pages which are impacted by proposed amendments from previous submittals. The affected pages and submittal numbers are:

<u>Unit</u>	<u>Page</u>	<u>Submittal No.</u>	<u>Date</u>
1	3/4 3-55	1170D	August 12, 1992
2	3/4 3-46	1170D	August 12, 1992
2	3/4 3-47	1181	April 16, 1993

The changes proposed in this submittal are either redundant to or in addition to the previous changes and do not supersede them.

We believe that the proposed changes will not result in (1) a significant change in the types of effluents or a significant increase in the amount of any effluents that may be released offsite, or (2) a significant increase in individual or cumulative occupational radiation exposure.
