Docket Nos.: 50-315
50-316

U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D. C. 20555

Gentlemen:

Donald C. Cook Nuclear Power Plant, Unit Nos. 1 and 2
PROPOSED EMERGENCY ACTION LEVELS
RESPONSE TO REQUEST FOR ADDITIONAL INFORMATION
(TAC NOS. M89878 AND M8987)

In our letter AEP:NRC:1192 dated June 13, 1994, Indiana Michigan Power Company proposed revisions to the Emergency Plan for the Donald C. Cook Nuclear Power Plant that would incorporate Emergency Action Levels (EALs) based on the guidance provided in NUMARC/NESP-007, Rev. 2, *Methodology for Development of Emergency Action Levels*. In accordance with the requirements of 10CFR50.47(e) and 10CFR50 Appendix E, the proposed revisions were submitted to the NRC for review and approval prior to implementation.

By letter dated November 22, 1994, the NRC staff requested additional information related to the proposed EALs and associated technical basis document. Attached to this letter are responses to the NRC request for additional information.

We are conducting a graded exercise of our Emergency Plan on May 9, 1995. We will implement the new EALs after that date. We remain available to answer any additional questions that the NRC staff may have.

Sincerely

E. E. Fitzpatrick
Vice President
