AEP:NRC:0980W

Docket Nos.: 50-315  
50-316

U. S. Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Washington, D. C. 20555

Gentlemen:

Donald C. Cook Nuclear Plant Units 1 and 2  
ADDITIONAL MODIFICATIONS FOR TECHNICAL  
SPECIFICATION CHANGE REGARDING DELETION  
OF COMPONENT CYCLIC OR TRANSIENT LIMIT TABLE

Our previous letters AEP:NRC:0980U, dated November 12, 1993, and AEP:NRC:0980V, dated November 18, 1994, proposed to delete technical specification (T/S) 5.9.1 and T/S Table 5.9-1 (Unit 1) and T/S 5.7.1 and T/S Table 5.7-1 (Unit 2), entitled "Component Cyclic or Transient Limits." The letters proposed to relocate these T/S requirements to the Updated Final Safety Analysis Report (UFSAR). Pursuant to a request by your staff on January 24, 1995, this letter proposes an additional T/S change associated with deletion of the component cyclic or transient limits table. Specifically, we are proposing to include component cyclic or transient limits as one of the programs required to be maintained by T/S 6.8.1.

This additional change is considered to be administrative in nature, submitted at the request of your staff. As such, our 10 CFR 50.92 evaluation provided in our letter AEP:NRC:0980U remains valid.

Attachment 1 contains the additional current T/S pages, marked to reflect the proposed change. Attachment 2 contains the additional proposed, revised T/S pages.

The proposed change has been reviewed by the Plant Nuclear Safety Review Committee and by the Nuclear Safety and Design Review Committee.
