AEP:NRC:1129K

Docket Nos.: 50-315

U. S. Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Washington, D. C. 20555

Gentlemen:

Donald C. Cook Nuclear Plant Unit 1  
TECHNICAL SPECIFICATION CHANGES TO ALLOW  
FOR REPAIR OF HYBRID EXPANSION JOINT (HEJ)  
SLEEVED STEAM GENERATOR TUBES  
ADDITIONAL INFORMATION

The purpose of this letter is to amend our unit 1 steam generator HEJ sleeved tube repair application, as requested by your staff. We were present for the Wisconsin Power Company presentation to NRR regarding the "Evaluation of Far Field Residual Stress in HEJ Sleeved Tubes" on January 8, 1995, and agree that the Westinghouse evaluation report developed for EPRI is a useful supplement to our application submitted in AEP:NRC:1129E dated August 4, 1995. Therefore we do hereby request that this report SG-95-11-002, "Evaluation of Far Field Residual Stresses in HEJ Sleeved Tubes", submitted by Wisconsin Public Service by their letter NRC-95-117, dated November 8, 1995, be included by reference on our docket.

Sincerely,

*E. E. Fitzpatrick*

E. E. Fitzpatrick  
Vice President
