Gentlemen:

Donald C. Cook Nuclear Plant Units 1 and 2  
SPILL NOTIFICATION

The attached notification is forwarded for your information pursuant to Appendix B of the Donald C. Cook Nuclear Plant Environmental Technical Specifications. The subject of this notification concerns an oil "spill" resulting from oil vapor from the unit 2 hydrogen seal oil vapor extractors accumulating on the turbine building roof and subsequently being washed down the roof drains to the storm water system.

Should you have any questions or concerns regarding this notification, please contact James T. Weber at 614-223-2025.

Sincerely,

  
E. E. Fitzpatrick  
Vice President

Mr. Fred Morley, District Supervisor  
Surface Water Quality Division  
Michigan Department of Natural Resources  
621 North Tenth Street P. O. Box 355  
Plainwell, MI 49080

May 14, 1996

Subject: Cook Nuclear Plant  
Storm Water General Permit No. MIR70P008

Dear Mr. Morley:

The following notification is being performed per Storm Water General Permit MIR70P008, Part II. Section A. 3. Spill Notification.

On May 10, 1996 at 1100 hours, plant personnel were performing the semiannual Storm Water Pollution Prevention Inspection tour. A small oil sheen was discovered coming from Outfall 002S. Further inspection revealed the source of the oil to be a small accumulation of approximately 5 gallons on the turbine building roof. An estimated 1 gallon of oil was washed down the roof drains to the Storm Water system. The release was a result of oil vapor accumulating on the roof from the Unit Two hydrogen seal oil vapor extractors. A strong rainstorm during the early morning on May 10, 1996 caused some oil to be washed past protective oil collection booms and enter the Storm drains.

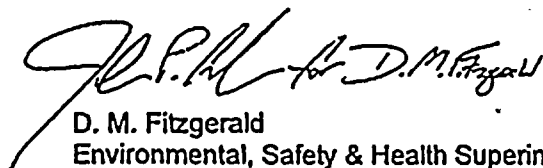

The spilled oil was cleaned up and fresh oil collection booms were placed on the turbine roof, the downstream storm drains and at the Outfall 002S.

A design modification has been submitted to prevent any similar occurrences from happening.

Modifications to the Storm Water Pollution Prevention Plan are being made to improve the existing controls to prevent a recurrence of the event as required in Part I.B. of Storm Water General Permit MIR70P008.

Should you have any questions, please contact John Carlson, Cook Nuclear Plant, Environmental Supervisor at (616) 465-5901 ext. 1153 or me at (616) 466-2546.

Sincerely,

  
D. M. Fitzgerald  
Environmental, Safety & Health Superintendent.
