50-316

U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D. C. 20555

Gentlemen:

Donald C. Cook Nuclear Plant Units 1 and 2
PROPOSED REVISION TO THE 1994 UPDATED
QUALITY ASSURANCE PROGRAM DESCRIPTION (QAPD)

This letter and its attachments constitute a proposed revision to the 1994 Updated Quality Assurance Program Description (QAPD).

The proposed changes (1) in some cases, constitute reductions in previous commitments, but will provide for more effective control by permitting management attention to be more focused on activities related to nuclear safety; (2) are a result of organizational adjustments which focus resources on present and future needs of Cook Nuclear Plant; or (3) are editorial.

Attachment 1 to this letter addresses each of the specific changes (other than the general repagination and changes in capitalization). The proposed changes can readily be identified by the highlighting in Attachment 2, which is the proposed QAPD.

As provided by 10CFR 50.54(a) (3) (iv), the proposed changes shall be regarded as accepted by the Commission upon receipt of a letter to this effect, or 60 days after submittal, whichever occurs first unless otherwise notified by the Commission.

Sincerely,

E. E. Fitzpatrick
Vice President
