July 30, 1998

United States Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555

Operating Licenses DPR-58
Docket No. 50-315

Document Control Manager:

In accordance with the criteria established by 10 CFR 50.73 entitled Licensee Event Report System, the following report is being submitted:

98-032-00

The original due date for this submittal was July 23, 1998. An additional 7 days to submit the LER was requested and granted by Mr. B. Burgess of Region III. The extension was requested to allow additional time to confirm that the analysis previously performed by Westinghouse for LER 315/98-006-02, "Ice Basket Weighing Option Results in Potential Unanalyzed Condition Due to Lack of Technical Basis for Option", was the bounding analysis for ice basket configuration anomalies.

This LER shall also serve to fulfill the reporting requirements of 10CFR21.21(c)(3)(ii). The information required by 10CFR21.21(c)(3)(ii) is provided in the "Analysis of Event" section of the LER.

Sincerely,

A handwritten signature in cursive script, reading 'John R. Sampson', is written over the typed name.

J. R. Sampson
Site Vice President
