Washington, DC 20555-0001

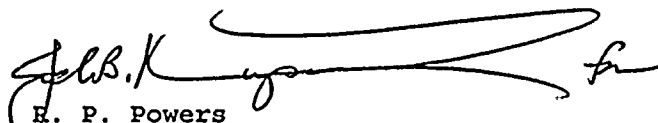

Gentlemen:

2.206 Petition Response

We previously forwarded via AEP:NRC:1260G7 our response to the 2.206 Petition, which included NPSH calculations as requested. This letter was supplemented with an affidavit to the NRC, (AEP:NRC:1260GC dated August 5, 1998) to consider the calculations proprietary. The purpose of this letter is to withdraw our request to consider the calculations proprietary.

Calculation ENSM970919AF included pages marked as proprietary by Westinghouse Electric Corporation. The attachment to this letter contains correspondence from Westinghouse releasing these pages for public disclosure.

Sincerely,

  
E. P. Powers  
Senior Vice President Nuclear Generation  
American Electric Power Service Corporation

AMERICAN ELECTRIC POWER  
DONALD C. COOK NUCLEAR PLANT UNITS 1 & 2  
NPSH Calculations Supporting Information

Dear Mr. Feliciano:

Per your request, Westinghouse provided a copy of a cover page and selected pages from calculation SAE/FSE-C-AEP/AMP-0102, "Cooldown Runs to Support Startup," 9/15/97. The selected pages from the calculation contain computer code input and output which include Component Cooling Water (CCW) temperatures entering the CCW pump and heat exchanger. These temperatures were provided as input to AEP's calculation to determine CCW pump Net Positive Suction Head (NPSH). The calculation, with the selected pages from the Westinghouse calculation, will be docketed with the NRC which will then become accessible to the general public. It was requested that Westinghouse confirm that the selected pages from the Westinghouse calculation could also be released as part of AEP's calculation. Westinghouse has determined that the selected pages do not include sensitive information, and would not violate criteria for proprietary information. Therefore, Westinghouse grants permission for AEP to release the Westinghouse information supplied in support of the AEP NPSH calculations.

Should you have any questions, please contact Mr. Don Peck (412-374-5683) or me.

Very Truly Yours,

Nancy Kury  
Customer Projects Manager
