Dear Mr. Grimes:

Re: Turkey Point Plant
Docket Nos. 50-250 & 50-251
Appendix I Technical Specifications

Florida Power & Light Company is preparing a response to your letter of November 15, 1978 on the subject of 10 CFR Part 50, Appendix I requirements. Due to the scope and impact of the requested change, the major differences between the Draft Radiological Effluent Technical Specifications and the Turkey Point Technical Specifications, and pending receipt of dose factors from our consultants, we are unable to respond according to the schedule established by Table I of your letter. As an alternative, we plan to submit our responses for the Turkey Point Plant by April 15, 1979.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems and Technology
