Secretary of the Commission  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Friend,

We have been advised recently by Mr. Robert Pollard, a specialist in nuclear reactor safety, that there are many unresolved safety questions regarding Florida Power & Light Co.'s announced plans to repair the steam generators in 2 of its nuclear reactors -- Turkey Point #3 and #4.

As an interested party, we would like to be informed immediately when a decision is reached regarding the advisability and legality of such plans, and the reasons for the decision reached.)

In view of the fact that technical questions of a controversial nature do not always come to public attention via the Federal Register, and in view of the fact that a lay-person would not consider such matters controversial unless and until a specialist advised him or her thusly, we would like to request a public hearing on the proposed repairs/replacements etc. to be held as soon as possible.

We also request that we be advised any time FP&L requests an amendment to its licensing for any of its nuclear facilities.

For the Conchshell Alliance,

THE SECRETARY OF THE  
TREASURY  
WASHINGTON, D. C.

Dear Sir:

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the proposed amendment to the National Bank Act, and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.

I am, Sir, very respectfully,  
Yours very truly,  
J. M. Smith

Enclosed for the Secretary of the Treasury are two copies of a report of the Committee on Finance of the House of Representatives, dated and captioned as above, which report was adopted by the House on the 10th inst. and is now being considered by the Senate. The report contains a full and complete statement of the facts and circumstances connected with the proposed amendment, and also contains the recommendations of the Committee.

Very respectfully,  
J. M. Smith
