Dear Mr. Schwencer:

Re: Turkey Point Units 3 & 4  
Docket Nos. 50-250 & 50-251  
Pump & Valve Test Program

Your letter of July 5, 1979 requested that we review our position regarding proposed cycling testing of check valves. Subsequent to that letter, several valves in the Turkey Point Unit 4 Valve Test Program, including the check valves alluded to in the July 5 letter, were discussed by FPL and NRC Staff representatives during a telephone conversation on July 13, 1979. It is our understanding that all outstanding issues have been dispositioned as a result of that conversation, as documented in our letter L-79-219 of August 10, 1979.

Very truly yours,

Robert E. Uhrig
