EVENT DESCRIPTION AND PROBABLE CONSEQUENCES (10)

02 Contrary to TS 4.1 (Item 4 of Table 4.1-1), the periodic test of T(avg)
03 and delta-T was not completed within the required time interval. The
04 surveillance on protection channel Sets I and II was complete, and the
05 surveillance was in progress on Set III. Investigation of a unit trip
06 delayed the completion of the surveillance on Set III and exceeded the
07 TS interval (of 14 days+/- 25%) by 11 hours.
