Dear Mr. O'Reilly:

Re: RII:PJK

50-251/79-11

On September 13, 1979 (L-79-255) Florida Power & Light Company informed you of a revision to our commitment date to October 31, 1979, for Finding A.6 of the subject inspection report concerning storage of Quality Assurance records at the General Office Building.

All corrective action associated with this finding have been completed with the exception of installing the new metal cabinets. We are experiencing additional delays by the supplier, with the expected delivery date of the cabinets now being mid-January 1980. Also, we have been unable to obtain a better delivery date from other vendors for the type of cabinet we desire.

We consider that the upgrading of the fire protection features of the storage room which have been accomplished and the access controls and limitations applied to the room provide sufficient interim protection for these records until the new metal cabinets can be received and installed.

We have established January 31, 1980 as the target date for total completion of these actions.

If you should have any questions regarding this matter, please feel free to call me.

Very truly yours,

R. E. Uhrig

R. E. Uhrig
