Dear Mr. Schwencer:

Re: Turkey Point Units 3 & 4  
Docket Nos. 50-250 & 50-251  
Waterhammer

Due to manpower demands generated by NUREG-0578 (TMI-2 Lessons Learned Task Force Status Report and Short-Term Recommendations) we are unable to respond at this time to your September 18, 1979 request for information regarding the potential for steam generator water hammer at pressurized water reactors with feedrings that discharge from the bottom. We are continuing our efforts to answer your questions and plan to respond by December 21, 1979.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology
