Office of Nuclear Reactor Regulation
Attention: Mr. A. Schwencer, Chief

Division of Operating Reactors

Dear Mr. Schwencer:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Containment Purge

- References: (1) NRC letter dated August 28, 1979
from A. Schwencer to R. E. Uhrig
(applicable to Docket Nos. 50-250 & 50-251)
- (2) NRC letter dated September 27, 1979 from
Darrell G. Eisenhut to All Light Water Reactors
- (3) NRC letter dated October 23, 1979 from A. Schwencer
to R. E. Uhrig (applicable to Docket Nos. 50-250 & 50-251)

The referenced letters requested information and commitments regarding containment venting and purging during normal operation. We are expediting resolution of this issue with our NSSS vendor, architect engineer, and purge valve manufacturer.

Rather than fragment our efforts by providing a separate response to each of the referenced letters, we would prefer to respond with a single report in December. Consequently, we have scheduled December 13, 1979 as the due date for submittal of a combined response to References (1) through (3).

Please call if you have additional questions on this subject.

Very truly yours,

Robert E. Uhrig
Vice President
