(Turkey Point Nuclear Generating)
Unit Nos. 3 and 4))

Docket Nos. 50-250-SP
50-251-SP

12-21-79

LICENSEE'S MOTION FOR EXTENTION OF TIME

On December 17, 1979, the Intervenor served on the Licensee a document entitled "Intervenor's Responses to Licensee's Objections to Intervenor's Interrogatories to and Request for the Production of Documents from Licensee, Florida Power & Light Company." The Intervenor requested that the Licensing Board order the Licensee to answer specific discovery requests. Consequently, the Licensee assumes that the Intervenor intends that the document be treated as a motion to compel, and the Licensee hereby declares its intention to file an answer to the motion as permitted by 10 CFR §2.730(c).

As part of its answer to the motion to compel, the Licensee is considering whether to withdraw some of its objections to specific interrogatories. The determination of which objections

will be withdrawn depends, to a large extent, upon the recommendations of the Licensee's technical personnel. However, due to the upcoming holiday season, many of these individuals will be unavailable for consultation. Therefore, to enable the Licensee to confer with its technical staff, the Licensee requests an extension to January 14, 1979 in which to file its answer to the Intervenor's motion.

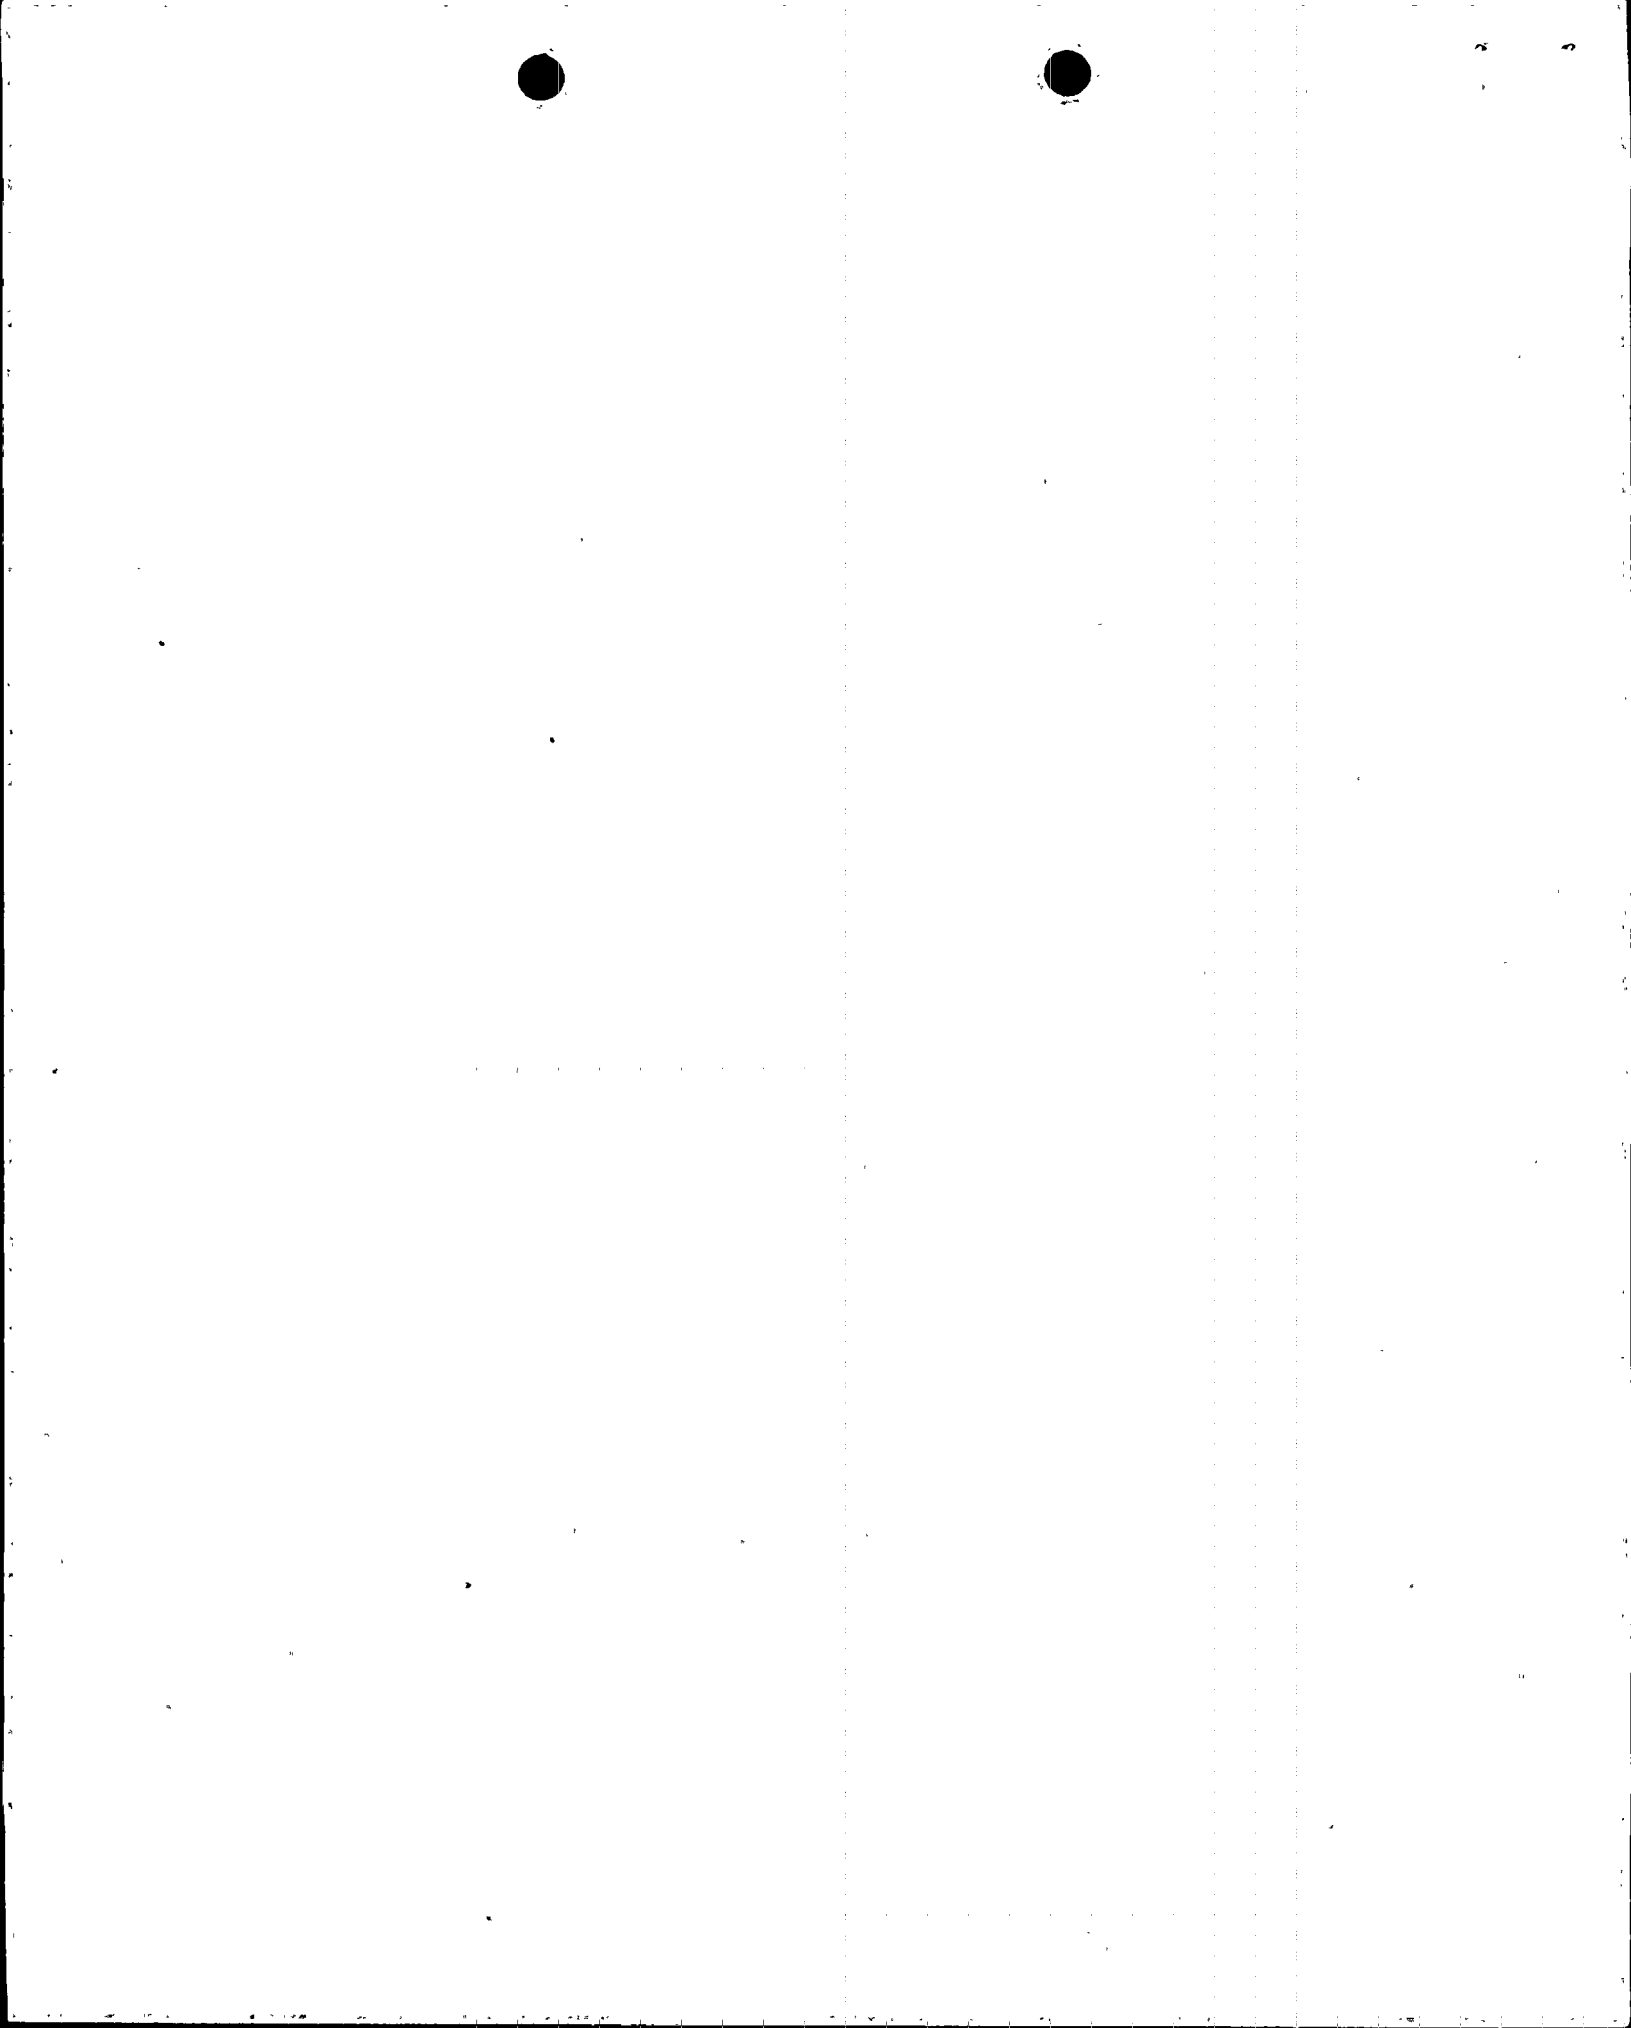

The Intervenor's counsel has stated that he has no objection to the granting of this extension.

Respectfully submitted,

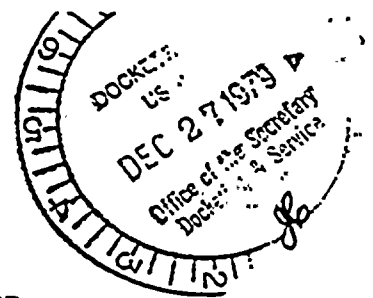

Harold F. Reis
