Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
TSC Data Display

The purpose of this letter is to advise your office that Florida Power & Light Company (FPL) has revised a commitment associated with the display of plant parameters in the interim Technical Support Center (TSC).

Our letter of May 4, 1980 indicated that display of plant parameters in the TSC would be operational by July 1, 1980. The July 1 date was based on the temporary nature of certain aspects of the proposed modifications. Since the May 4, letter however, a decision has been made to revise the modification package to effect a more permanent electrical interconnection between the Cable Spreading Room and the interim TSC. The additional time associated with revising the modification package has led us to establish August 31, 1980 as the new commitment date.

Please call if you have additional questions on this matter.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
