Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Limiting Conditions For Operation

The purpose of this letter is to update the status of our review of proposed Standard Technical Specifications regarding the definition of the term "OPERABLE" and its application to Turkey Point Units 3 & 4.

A proposed amendment, which adapts guidance from your April 10, 1980 letter to the format of the Turkey Point Technical Specifications, has been approved by the Plant Nuclear Safety Committee (PNSC). The proposal will now be forwarded for routine review by The Company Nuclear Review Board (CNRB). Routine review by the CNRB is expected to take approximately one month, therefore we have scheduled September 15, 1980 as the revised submittal date.

Please call if you have additional questions on this matter.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology

15. The fifteenth part of the document

16. The sixteenth part of the document

17. The seventeenth part of the document

The first part of the document is a general introduction to the subject matter. It discusses the importance of the research and the objectives of the study. It also provides a brief overview of the methodology used in the research.

The second part of the document is a detailed description of the research methodology. It outlines the steps involved in the data collection and analysis process. It also discusses the limitations of the study and the potential sources of error.

The third part of the document is a presentation of the research results. It includes a series of tables and graphs that illustrate the findings of the study. It also provides a detailed explanation of the results and their implications.

The fourth part of the document is a discussion of the research findings. It compares the results of the study with previous research in the field. It also discusses the potential applications of the findings and the need for further research.

The fifth part of the document is a conclusion. It summarizes the main findings of the study and provides a final statement on the importance of the research. It also includes a list of references to the sources used in the study.

The sixth part of the document is a list of references. It includes a comprehensive list of all the sources cited in the study, including books, articles, and other documents. It is organized alphabetically by the author's name.

The seventh part of the document is a list of appendices. It includes a list of all the supplementary materials provided with the study, including data tables, graphs, and other documents. It is organized by the order in which they appear in the study.

The eighth part of the document is a list of figures. It includes a list of all the figures included in the study, including line graphs, bar charts, and other visual representations of data. It is organized by the order in which they appear in the study.
