Atlanta, Georgia 30303

Dear Mr. O'Reilly:

Re: RII-JPO
50-250, 50-251
IE Bulletin 79-03A

Florida Power & Light Company has reviewed the subject Bulletin and our preliminary information indicates that the seam welded piping in safety-related systems will meet the Code allowable stress criteria. This information is being documented by our Architect-Engineer and is not complete at this time. We expect to complete our documentation and forward our completed answer to the Bulletin by October 1, 1980.

Very truly yours,

J. A. De Mastry
