

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of)	Docket Nos. 50-250-SP
)	50-251-SP
FLORIDA POWER & LIGHT COMPANY)	
)	
(Turkey Point Nuclear Generating)	(Proposed Amendments to
Units 3 and 4))	Facility Operating License
)	to Permit Steam Generator
)	Repairs)

STATEMENT OF MATERIAL FACTS AS TO WHICH THERE
IS NO GENUINE ISSUE TO BE HEARD (CONTENTION 5)

Licensee contends that there is no genuine issue to be heard with respect to the following material facts:

1. The NRC Staff has given adequate consideration to the economic costs of the full-flow condensate polishing demineralizing system in Sections 4.2 and 6 of the Final Environmental Statement (FES) (NUREG- 0743).

2. The NRC Staff has given adequate consideration to the effluent release from, and any environmental degradation to be caused by, the full-flow condensate polishing demineralizing system in Sections 2.2 and 3.2.4 of the Updated Safety Evaluation Report (NUREG-0756), in the NRC Staff's "Assessment

1

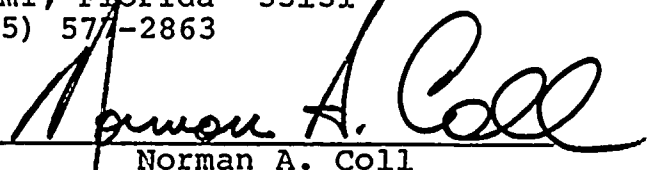

of the Impacts of the Steam Generator Repair Program at the Turkey Point Plant on Threatened or Endangered Species", pp. 6, 7, U.S. Nuclear Regulatory Commission, Office of Nuclear Reactor Regulation (November 1980), and in Sections 4.3.3 and 4.3.4 of the FES.

3. Neither the operation of the condensate polishing demineralizing system nor the effluents resulting from periodic backwash cycles will cause any environmental degradation or any adverse environmental impact.

Respectfully submitted,

STEEL HECTOR & DAVIS
Co-Counsel for Licensee,
Florida Power & Light Company
