

UNITED STATES OF AMERICA  
NUCLEAR REGULATORY COMMISSION

BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of : Docket Nos.: 50-250-SP  
50-251-SP

FLORIDA POWER AND LIGHT COMPANY : (Proposed Amendments to Facility  
Operating License to Permit  
(Turkey Point Nuclear Generating : Steam Generator Repairs)  
Units Nos.: 3 and 4)

INTERVENOR MARK ONCAVAGE'S REQUEST TO PRODUCE  
DOCUMENTS FROM THE STAFF OF FLORIDA POWER AND LIGHT COMPANY

Intervenor, by his undersigned attorney, in accordance with the applicable rules of 10 CFR 2.740 and 2.741, requests the Staff to produce within thirty (30) days, at the office of the attorney for the Intervenor:

1. The reports of corrosion testing of low alloy steel such as the Turkey Point Steam Generator assemblies at Kure Beach, N.C..

2. All memorandums, correspondence or other documents in the possession, custody or control of the Staff that outline the conclusions of Bernard Turovlin after the reports of corrosion testing of low alloy steel was performed at Kure Beach, North Carolina.

3. The International Commission on Radiological Protection cost benefit methodology in publication 22.

4. Copies of the instructions and demonstration in radiation protection principles, theory and practice, emergency planning, and the FPL radiological protection program.

5. The comprehensive examination that will be give to personnel for authority to go unescorted in the radiation controlled area.

6. The Intervenor has a substantial need for the documents and cannot obtain them elsewhere wihtout undue hardship. These documents support the Staff's Motion for Summary Disposition of Contention 2 and 6.Y

DATED this 15th day of April, 1981.
