Re: In the Matter of Florida Power and

Generating Units 3 and 4);
Docket Nos. 50-250-SP, 50-251-SP;
(Proposed Amendments to Facility
Operating License to Permit Steam
Generator Repairs)

Dear Members of the Board:

On April 27, 1981, the NRC Staff served a pleading entitled "NRC Staff Objections to Proposed Amended Contention 1 and Third Motion for Summary Disposition," which objected to the Intervenor's proposed amendments to Contention 1 and moved for the summary disposition of Contentions 1 and 4B. On April 30 and May 5, 1981, Florida Power & Light Company (FPL) filed pleadings which also objected to the proposed amendments to Contention 1 and supported the motion for the summary disposition of Contentions 1 and 4B. On May 12, 1981, the Intervenor filed its "Response to NRC Staff Objections to Proposed Amended Contention 1," in which it stated that it would file a separate answer to the motion for summary disposition by May 20, 1981.

In FPL's view, the latter pleading is unauthorized by the NRC's regulations or by the Board. The purpose of this letter is to advise the Board that FPL is preparing a motion to strike the pleading and plans to file it by hand no later than the close of business on Monday, May 18, 1981.

Sincerely,
