MORTGAGE CONSULTANTS AND PLACEMENT
COMMERCIAL - INDUSTRIAL - RESIDENTIAL

1 May 1981

Docketing and Service Section
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Gentlemen: .

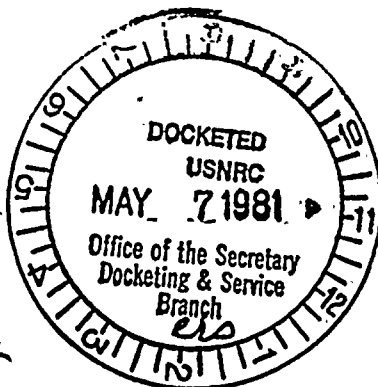

As one actively concerned with major considerations that affect public health and safety as well as its effect on the long range interests of the business community, I have an ongoing concern with the proposed repair of Turkey Point nuclear reactors.

I would therefore request the opportunity to be heard before the scheduled Turkey Point Repair Hearings on June 2, 1981 and would appreciate confirmation of your consent for my appearance.

Sincerely yours,

Ray M. Leopold
