Dear Mr. Kammerer:

Enclosed, for your information, are copies of correspondence which have come to me from two of my constituents, Mr. J. H. Rothwell, of Homestead, and Ms. Merle B. Frank, President, League of Women Voters of Metropolitan Dade County, Florida.

My constituents are protesting the recent decision by the NRC's Atomic Safety and Licensing Board to cancel the public hearing scheduled for the intervenor in Miami, Florida, who raised questions about the proposed steam generator repairs to Turkey Point Nuclear Power Plant.

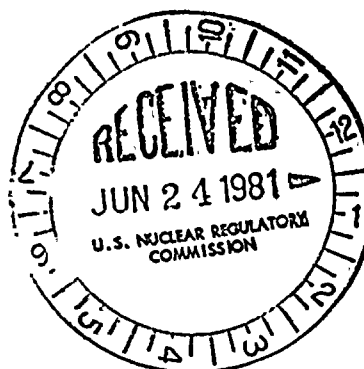

I would very much appreciate your consideration of the comments in the letters and your providing me with the benefit of a reply.

Thank you.

Sincerely,

Dante Fascell

Dear Representative Fascell:

It was most distressing that the N.R.C. cancelled the public hearing that was scheduled for June 2nd to address the proposed generator repairs at the Turkey Point nuclear plant. That the Commission granted Mark Oncavage the hearing two and a half years ago and then killed it in the final week of preparation may be consistent with vested interests and big money - but it stands as an outrageous affront to democratic process.

J. Harry Rothwell.

Dear Mr. Fascell:

The Atomic Safety and Licensing Board cancelled the June 2nd hearings on the repairs to the Turkey Point Nuclear Power Plant of Florida Power and Light Company.

Because of your knowledge and interest in this area, we are sending you a copy of the letter that the League of Women Voters of Metropolitan Dade County has sent to the Atomic Safety and Licensing Board.

We hope you agree that citizen input is necessary in this vital area. Any help from you will be appreciated.

Sincerely yours,

Merle B. Frank
President
