Re: In the Matter of Florida Power & Light
Company (Turkey Point Nuclear Generating
Units Nos. 3 and 4); Docket Nos. 50-250,
50-251 (Proposed Amendments to Facility
Operating License to Permit Steam
Generator Repairs)

Dear Members of the Board:

This refers to the Board's Order of July 28, 1981,
directing Florida Power & Light Company (FPL) and the NRC
Staff to provide full information about a void found in the
area adjoining and beneath the Turkey Point Unit No. 3
equipment hatch, including answers to certain questions
posed in the Order.

Enclosed is the affidavit of Frederick G. Flugger,
dated August 5, 1981, which demonstrates that there was no
breach of the structural integrity of the containment
pressure boundary at Unit 3 and otherwise responds fully to
the Board's Order on behalf of FPL.

Respectfully submitted,

Harold F. Reis
