Docket No. 50-250 & 50-251
Containment Purge

We are currently evaluating and preparing a response to your letter of August 31, 1981 concerning the purging and venting of containments. Due to a shortage of available manpower caused by the Turkey Point Unit 3 steam generator repair outage and the Turkey Point Unit 4 refueling outage, we are unable to complete our response according to your schedule. It is our intent to submit a response to all items in your letter prior to December 15, 1981.

Very truly yours,
