Office of Nuclear Reactor Regulation  
Attention: Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4  
Docket Nos. 50-250 and 50-251  
Proposed License Amendment  
Safety-Related Snubbers

In accordance with 10 CFR 50.90, Florida Power & Light Company submits herewith three signed originals and forty copies of a request to amend Appendix A of Facility Operating License DPR-31 and 41.

This amendment is submitted to add safety-related snubbers to Table 3.13-1. These additional snubbers were installed in Unit No. 3 during the recently concluded steam generator repair outage.

The proposed amendment is described below and shown on the accompanying Technical Specification pages.

Table 3-13-1

Nine additional snubbers have been included in Table 3.13-1.

The proposed amendment has been reviewed by the Turkey Point Plant Nuclear Safety Committee and the Florida Power & Light Company Nuclear Review Board.

Very truly yours,

  
Robert E. Uhrig  
Vice President  
Advanced Systems and Technology

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and the role of the accounting department in ensuring the integrity of the financial statements. It also mentions the need for regular audits and the importance of transparency in financial reporting.

2. The second part of the document outlines the various methods used to collect and analyze data, including surveys, interviews, and focus groups. It also discusses the importance of ensuring the reliability and validity of the data collected and the need for proper documentation of the research process.

3. The third part of the document describes the various techniques used to analyze the data, including statistical analysis, content analysis, and thematic analysis. It also discusses the importance of interpreting the results of the analysis in the context of the research objectives and the need for proper communication of the findings.

4. The fourth part of the document discusses the various methods used to disseminate the research findings, including conferences, journals, and reports. It also mentions the importance of ensuring that the findings are accessible to the relevant stakeholders and the need for proper citation of the research.

5. The fifth part of the document discusses the various methods used to evaluate the impact of the research, including surveys, interviews, and focus groups. It also mentions the importance of ensuring that the research has a positive impact on the community and the need for proper documentation of the impact.

6. The sixth part of the document discusses the various methods used to ensure the ethical integrity of the research, including obtaining informed consent, ensuring confidentiality, and avoiding conflicts of interest. It also mentions the importance of following the relevant ethical guidelines and the need for proper documentation of the ethical approval process.

7. The seventh part of the document discusses the various methods used to ensure the quality of the research, including peer review, replication, and meta-analysis. It also mentions the importance of ensuring that the research is conducted in a rigorous and systematic manner and the need for proper documentation of the quality assurance process.

8. The eighth part of the document discusses the various methods used to ensure the sustainability of the research, including establishing a research network, securing funding, and ensuring the long-term availability of the data. It also mentions the importance of ensuring that the research is conducted in a responsible and sustainable manner and the need for proper documentation of the sustainability plan.

9. The ninth part of the document discusses the various methods used to ensure the transparency of the research, including open access, data sharing, and public participation. It also mentions the importance of ensuring that the research is conducted in a transparent and accountable manner and the need for proper documentation of the transparency plan.

10. The tenth part of the document discusses the various methods used to ensure the relevance of the research, including identifying the research needs, conducting a literature review, and ensuring that the research is conducted in a timely and relevant manner. It also mentions the importance of ensuring that the research is conducted in a way that addresses the needs of the community and the need for proper documentation of the relevance plan.
