Office of Nuclear Reactor Regulation  
Attention: Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4  
Docket Nos. 50-250 and 50-251  
License Amendments 87/81

Florida Power & Light submitted a request to amend the Turkey Point Units 3 & 4 Technical Specifications on December 30, 1980 (L-80-427). This request was in response to a NRC request to provide for redundancy in decay heat removal systems. These changes were recently issued as Amendment 87 for Unit 3 and Amendment 81 for Unit 4.

While reviewing these amendments, we noticed several typographical errors which change some requirements of the specifications. The corrections are shown in the attachments. These errors did not effect the changes we were requesting concerning the decay heat removal system.

To correct these errors, we have attached corrected pages which should replace the pages in our December 30, 1980 submittal and in Amendments 87/81.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology
