1. The first part of the report is a general introduction to the project. It describes the purpose of the study, the scope of the work, and the organization of the report. It also includes a list of the principal findings and conclusions.

2. The second part of the report is a detailed description of the methods used in the study. It includes a description of the experimental design, the data collection procedures, and the statistical methods used to analyze the data.

3. The third part of the report is a discussion of the results of the study. It includes a description of the data, a comparison of the results with previous studies, and a discussion of the implications of the findings.

4. The fourth part of the report is a conclusion. It summarizes the main findings of the study and provides a final statement on the significance of the results.

L-82-452

Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4
Docket No. 50-250, 50-251
Fire Protection Rule
Submittal (Corrections)

References: (a) FPL letter No. L-82-266 dated July 1, 1982

Reference (a) transmitted the Turkey Point fire protection report entitled "Appendix R File Protection Review" in response to the remaining open items of Appendix R to 10 CFR 50. As you are aware, this report was prepared on an expedited basis in order to fulfill the NRC imposed early submittal date of July 1, 1982. As a result of the voluminous content of the report and the necessary abbreviated project schedule, a number of typographical and editorial errors (as well as a few content errors) were missed during our final review. Enclosed please find seven (7) copies of Revision 1 to the fire protection report issued to correct these errors. Please note that it is not the intent of this Revision to alter the fire protection approach, analysis technique, or proposed plant modifications for any fire areas, but to correct those errors which reduce the clarity of the submittal or produce any inconsistencies, and thus facilitate your review.

Florida Power & Light regrets any inconveniences this revision may cause.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
