Office of Nuclear Reactor Regulations
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Emergency Operations Facility (EOF)

In response to requests from members of your staff, this letter is being forwarded to provide additional information on the Turkey Point Plants E.O.F.

The Turkey Point EOF is located at Florida Power and Light's General Office in Miami (9250 W. Flagler Street) approximately 24 miles from the plant site. The General Office is a 6 story structure constructed of concrete and glass in accordance with the South Florida Building Code. The EOF is located on the first floor on the North side of the building and is below the raised ground level of that side of the building. A protection factor is not applicable due to its location with respect to the plant. Standard industrial building HVAC is installed with no special (HEPA) filtration provided.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
