1. The first part of the document discusses the importance of maintaining accurate records of all transactions and the role of the accounting department in ensuring the integrity of the financial data. It emphasizes the need for transparency and accountability in all financial reporting.

2. The second part of the document outlines the various methods used to collect and analyze financial data, including the use of spreadsheets, databases, and specialized accounting software. It also discusses the importance of regular audits and the role of external auditors in verifying the accuracy of the financial statements.

3. The third part of the document focuses on the importance of budgeting and financial planning. It discusses the process of setting financial goals and the role of the accounting department in monitoring progress and making adjustments as needed. It also emphasizes the importance of communicating financial information to management and other stakeholders.

4. The fourth part of the document discusses the importance of maintaining accurate records of all transactions and the role of the accounting department in ensuring the integrity of the financial data. It emphasizes the need for transparency and accountability in all financial reporting.

5. The fifth part of the document outlines the various methods used to collect and analyze financial data, including the use of spreadsheets, databases, and specialized accounting software. It also discusses the importance of regular audits and the role of external auditors in verifying the accuracy of the financial statements.

6. The sixth part of the document focuses on the importance of budgeting and financial planning. It discusses the process of setting financial goals and the role of the accounting department in monitoring progress and making adjustments as needed. It also emphasizes the importance of communicating financial information to management and other stakeholders.

7. The seventh part of the document discusses the importance of maintaining accurate records of all transactions and the role of the accounting department in ensuring the integrity of the financial data. It emphasizes the need for transparency and accountability in all financial reporting.

8. The eighth part of the document outlines the various methods used to collect and analyze financial data, including the use of spreadsheets, databases, and specialized accounting software. It also discusses the importance of regular audits and the role of external auditors in verifying the accuracy of the financial statements.

9. The ninth part of the document focuses on the importance of budgeting and financial planning. It discusses the process of setting financial goals and the role of the accounting department in monitoring progress and making adjustments as needed. It also emphasizes the importance of communicating financial information to management and other stakeholders.

10. The tenth part of the document discusses the importance of maintaining accurate records of all transactions and the role of the accounting department in ensuring the integrity of the financial data. It emphasizes the need for transparency and accountability in all financial reporting.

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D. C. 20555

Gentlemen:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Augmented Management on Shift Program

The purpose of this letter is to describe the actions Florida Power & Light Company (FPL) is taking to augment and modify the Management on Shift Program which was described in our letter, L-87-400, dated October 7, 1987. These changes have been discussed with the NRC Region II Staff and are provided here to formalize FPL's commitment to these actions.

FPL's commitment to management presence on the backshift will continue as discussed in our October 7, 1987 letter. However, the Management on Shift Program is being augmented to include continuous coverage by at least one individual who has not been assigned to Turkey Point within the previous two years. These individuals shall hold or have held an SRO license or have previous experience in assessing the operation of commercial nuclear power plants. The augmented Management on Shift Program will be implemented prior to entering Mode 2 for either Turkey Point reactor.

In addition to the augmented Management on Shift Program, a special operational evaluation will be performed by INPO, using industry peer evaluators, to assist FPL in identifying the actions needed to achieve the desired level of accountability and performance expected of our operating personnel. The augmented Management on Shift coverage will remain in place until FPL is satisfied that this high level of performance is achieved. The NRC will be advised in advance of FPL's determination that the program can be reduced or terminated.

As with the other operations enhancements, items of concern which are surfaced with this augmented coverage will receive prompt management attention.

Very truly yours,

C. O. Woody
Group Vice President
