Gentlemen:

Docket Nos. 50-335 and 50-389
Organization Changes

The purpose of this letter is to notify the NRC that Florida Power & Light Company (FPL) has implemented an organization change in the Nuclear Energy Department.

The undersigned has assumed the position of Senior Vice President - Nuclear. Reporting to this position will be the Site Vice President - Turkey Point Nuclear, the Site Vice President - St. Lucie and the new position of Vice President - Nuclear Energy.

This organization establishes direct control of the operating plants under the company's senior nuclear officer. Further, this change consolidates the Nuclear Energy Staff under a single corporate officer. A figure showing the new organization is attached.

These changes were made under the provisions of 10 CFR 50.54(a)(3) in that the changes do not reduce the commitments in the Quality Assurance program description previously accepted by the NRC. These changes are also consistent with the requirements of the offsite organization technical specifications. The revised organization charts and the revised description of the responsibilities of these positions are located in the FPL Topical Quality Assurance Report (TQAR). In accordance with 10 CFR 50.71 these revisions will be submitted with the next annual submittal of the TQAR.
