Gentlemen:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Emergency Response Data  
Acquisition and Display System (ERDADS)

Florida Power & Light Company (FPL) has been in the process of upgrading the Emergency Response Data Acquisition and Display System (ERDADS). ERDADS computers are utilized to collect and display the Safety Parameter Display System (SPDS) and Safety Assessment System (SAS) information. In order to improve system performance, new software and some hardware will be installed. During this installation, scheduled for late September and October 1988, the SPDS and SAS will be out of service. FPL will utilize telephone communication between the Control Room, Technical Support Center and Emergency Operations Facility to transmit data and information which is in accordance with Turkey Point Radiological Emergency Plan.

Should there be any questions, please contact us.

Very truly yours,

  
W. F. Conway  
Senior Vice President - Nuclear
