SEPTEMBER 15 1988

L-88-405
10 CFR 50.36

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D. C. 20555

Gentlemen:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
St. Lucie Units 1 and 2
Docket Nos. 50-335 and 50-389
Monthly Operating Report

Attached are the August 1988 Operating Status Reports and Summary of Operating Experience Reports for Turkey Point Units 3 and 4 and St. Lucie Units 1 and 2.

Additionally, a corrected copy of the Unit Shutdown and Power Reduction Report for St. Lucie Unit 1 for the month of July 1988 is attached. The "Method of Shutting Down Reactor" for Item No. 03 on 880701, was incorrectly coded 2 - Manual Scram. The correct code is 9 - Other, in that, the reactor remained critical during this evolution. The previous July 1988 Report for St. Lucie Unit 1 was provided in our letters L-88-351, dated August 15, 1988, and L-88-362, dated August 22, 1988.

Should there be any questions please contact us.

Very truly yours,

DA Sagel
W. F. Conway
