Mr. Steven A. Varga, Director  
Division of Reactor Projects - I/II  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Varga:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Probabilistic Risk Assessment (PRA)

Your letter of October 24, 1988 recommended that Florida Power & Light Company (FPL) perform a PRA for Turkey Point Units 3 and 4.

As you know, the severe accident policy generic letter, which we understand will be issued soon, will require that each licensee perform a risk assessment study for each of their licensed facilities. FPL has established a task team to evaluate and recommend to management a course of action to respond to the requirements of the generic letter for both the Turkey Point and St. Lucie Plants. I would be pleased to discuss this issue with you at the Management Meeting at Turkey Point on November 14, 1988.

If you have any questions, please contact me.

Very truly yours,

  
W. F. Conway
