Dear Sir

I am writing you to
~~express my concern~~ about the
Turkey Point Nuclear Power Plant.
I feel that the Turkey Point Nuclear
Power Plant is hurting our environment,
and is a very unsafe way of
making electrical energy in
Florida. I would like to see
Florida go into solar or wind
generated electricity.

Would you please send me
any information you may have
on Turkey Point's effects on the
environment, and what you have
done about seeking alternative
power sources.

Thank You
Daniel Hammontree
