Dear Mr. Varga:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Environmental Qualification
of Electrical Equipment

We have reviewed the effort required to provide verification of proprietary information contained in the Technical Evaluation Report attached to your letter dated December 13, 1983. As stated in our initial response, this review will necessitate contacting each vendor that has provided data in our original submittal and have them provide certification of the proprietary nature of the information identified in the technical evaluation report.

We now expect to complete our review and provide the requested justification by April 29, 1983.

Should you or your staff have any questions concerning this schedule, please contact us.

Very truly yours,

Robert E. Uhrig
